

Get a **14% discount** on the centrifuge 5427R and the biobased tubes from Eppendorf
Valid until **31.12.2024**

Centrifuge 5427R

- Cooled with natural refrigerant (R290) to protect your samples - and the planet
- Max. speed: 25.001 × g (16,220 rpm)
- Soft touch one-finger closure for ergonomic operation
- Temperature range from -11 °C to 40 °C
- FastTemp function for quick pre-cooling of the centrifuge, e.g. from +/- 23 °C to 4 °C in only 11 minutes
- ECO shut-off can be programmed to engage after 1, 2, 4 or 8 hours of non-use for maximum energy savings and extended compressor life
- Built-in condensation drain to eliminate water accumulation
- Automatic rotor recognition and imbalance detection for maximum operational safety

Biobased tubes

Switch to the Eppendorf Tubes® BioBased to improve your laboratory carbon footprint. These tubes are produced from recycled feedstock in second generation, derived solely from waste and residue streams from vegetable oil production e.g. used cooking oil.

The tubes are sterile, pyrogen-, DNase-, RNase-, human and bacterial DNA-free, but not autoclavable.

Tubes with ACT (Accountability, Consistency, and Transparency) and ISCC PLUS (International Sustainability & Carbon Certification) certification.
