2016

One of our nine factories
The Krapkowice manufacturing plant – our philosophy in practice

Europe's most modern papermaking facility produces toilet paper, paper towels and AFH products.

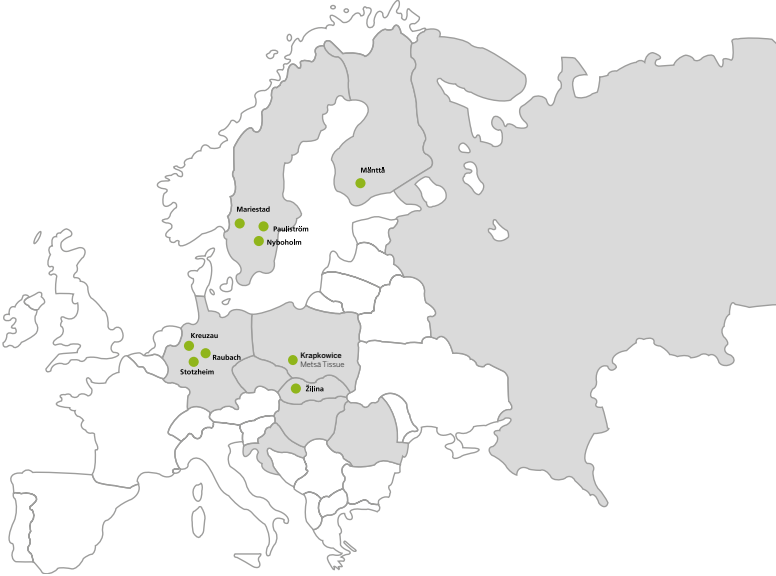

Number of employees: 245

Within an investment of EUR 60 million there were launched two pieces of state-of-the-art machinery for paper and a new converting line for rolls and folded products.

Environmentally-friendly modernisation:

- Increased energy and material efficiency
- Closing the coal-fired power plant and switching to biofuels
- Significantly reducing nitrogen oxide, sulfur dioxide and dust emissions

Through innovations, we are preparing for a better future.

Metsä Tissue – let's look closer

Metsä Tissue is part of the Metsä Group and owns the Katrin brand.

Our mission is defined by these words: Everyday comfort.

We always strive for our products:

- To be the highest quality, ecological and easy to use;
- To make everyday life easier;
- To provide a pleasant atmosphere in working areas, public buildings and other places where their users are away from home;
- To be safe, environmentally friendly and economical.

We want our representatives, products and solutions to be always at hand.

Our products and engineering are constantly evolving. We believe in innovation introduced to benefit people and the environment.

Legend

	laminated, increases product strength and absorbency
	approved for use in food (ISEGA certificate)
	EU ECO-LABEL – products made from primary and recycled fibers during the manufacturing process, the emphasis is on the use of chemicals, environmentally friendly and will be taken into account for the reduction of greenhouse gas and other air emissions

Metsä Group, Our Family

One of the most important forest industry groups in the world. Operating in 30 countries.
Number of employees: 12,500. The market leader in paper hygiene products in Central and Eastern Europe. The leading supplier in Western Europe.

The Metsä Group's Mission:

We wish to be a profitable and competitive timber industry group whose manufacturing uses wood produced by its members.

The Metsä Group's Values:

Responsible, profitable, reliable, cooperative and sustainable.

Safe, biodegradable products

Produced from renewables managed in a sustainable manner. Minimal environmental impact during the entire product life cycle. Production processes and procedures with low adverse environmental impact.

HYGIENE ON HAND: KATRIN PRODUCTS

Katrin is a brand of hygienic products designed to ensure hygiene and comfort in buildings where people away from home spend time, such as public toilets, offices, hotels, schools and health care centers.

The most advanced technology, both effective and environmentally friendly, is used to produce Katrin products.

KATRIN (all) INCLUSIVE

- Coffeehouses
- Restaurants Fast food

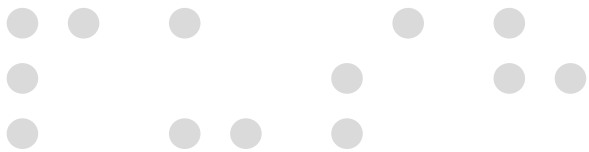

- Opera
- Business center
- Gas Station

LOW number of guests HIGH

NEW COLLECTION INCLUSIVE

A practical approach to creativity

Katrin Inclusive dispensers are designed according to an analysis of needs and user requirements. In designing the new collection, we took their comments and suggestions into account. As a result, the Inclusive containers themselves combine all the important functions for the user.

Inclusive dispensers – designed with respect to:

Cleaning and maintenance staff

- faster service
- easier filling
- simpler to check if refilling is needed

Users

- easier for anyone to use
- better availability
- increased visibility

Proven in practice

Inclusive dispensers have undergone all-round testing to simulate at least 20 years of use in real conditions found at public toilets. We are proud to announce that they are ready for the toughest test: Real life

The only dispensers on the market with Braille to help the visually impaired use them.

Inclusiveness For each project

Our mission was to design versatile dispensers anyone can easily operate anywhere. The Inclusive design is aimed at the widest possible range of users: young, old, healthy and handicapped.

Working with users gave us valuable insights that enabled us to create perfect hygiene conditions for everybody.

New features, less problems

- large, easy to use button on the front panel
- contrasting colors for dispenser openings
- transparent sidewalls
- effective checking for refills and time spent operating them

DISPENSERS KATRIN INCLUSIVE

Ready for the ultimate test: Real life

To ascertain our new dispensers would work as they should, we put them through a series of tests. Special attention was paid to making them easy to use and accessible for everyone. This test tells us they work.

- ① **Mechanical safety**
No sharp edges. No possibility of injury or bruised fingers.
- ② **Resistance test**
All dispensers were opened 5250 times. This represents 20 years of use.
- ③ **Drop test**
The product in its cardboard box was dropped onto a tiled floor from heights of 46 and 91 centimetres. The packaging properly protects the dispenser.
- ④ **Impact test**
A one-kilogram steel ball was dropped onto all three surfaces of the dispenser from a height of 50 centimeters.
- ⑤ **Stacking test**
This simulates the pressure packages face during storage and transport. The test was conducted on a pressing machine with increasing pressure.
- ⑥ **Static loading test**
The weight was loaded progressively on the dispenser up to 25 kilograms.
- ⑦ **Functionality test**
The functionality of dispensers was tested with customers.
- ⑧ **Designed for everyone**
Usability of dispensers was tried out with children, the elderly and people with different disabilities.
- ⑨ **Appearance**
In comparison with other dispensers. 74% of respondents chose our product. Esthetics test passed.
- ⑩ **Bureau Veritas**
Our dispensers are certified by Bureau Veritas, a global leader in testing, inspection and certification.

**BUREAU
VERITAS**
**QUALITY
CHECK**

MANY OTHER DISPENSERS WERE
DESTROYED IN DESIGNING THIS DISPENSER

To remove the paper just lightly pull. Thanks to the easy handling the dispensers are suitable for less able-bodied users.

Katrin System Family

Frugality and functionality – these are our values

This collection of innovative dispensers lowers consumption by 40% and guarantees paper, towels and soap are always accessible.

Katrin helps cut costs without reducing comfort or hygiene.

Katrin dispensers' large capacity means less frequent refills. This saves maintenance staff time and lowers the cost of keeping rooms clean.

Towel Dispensers Katrin System

- One size, different paper qualities
- If no paper is visible, the easy to use PUSH button lets it appear.
- Braille instructions on the PUSH button for the visually impaired.
- The fully-openable locking mechanism makes it easy to access and keep clean.

Katrin System Family

Our family values

- Easy use and maintenance
- Cost effective
- Less consumption, waste, adverse environmental impact
- Designed for you and your customers
- Innovative and smart solutions and engineering
- Additional products (towels + paper + soap)
- Design suitable for any interior (white or black)

Toilet dispenser Katrin System paper

- For two toilet paper rolls
- Continuous paper feed thanks to a descent roll system.
- Brake to minimise excessive use.
- Simple and quick to refill.
- Better access to paper from the dispenser's front opening compared to Gigant/Jumbo dispensers.
- Adjustable lock – with key or keyless.

Soap Dispensers Katrin

- Available in two sizes: 500 ml and 1000 ml
- Liquid or foaming soap, hand sanitizing gel, disinfectant, public toilet seat sanitizer and shower gel can be dispensed from the same dispenser.
- The large button on the front cover makes the dispenser easy to operate without effort.
- The inscription in Braille for the blind makes it easy to use.

Using our dispenser requires no effort – the large button on the front cover facilitates the dosage.

KATRIN EASE DISPENSERS

Touchless systems are the future

Touchless hygiene solutions are rapidly gaining popularity and consumers are increasingly seeking them out.

Katrin Ease products include towel roll, soap and air freshener dispensers. They operate reliably and are no problem to maintain at any public toilet used by large numbers of people.

Katrin Ease is a collection of products combining many advantages:

- maximum hygiene
- quick handling in places visited by large numbers of people
- low energy consumption
- optimal dispensing and high capacity: less frequent refilling
- less waste
- ease of use (intuitive replenishment)

FOLDED TOWEL DISPENSERS

Folded paper towels are convenient and a hygienic solution. Towel dispensers are designed to release one sheet at a time so users always take just one sheet.

Folded towel dispenser

- Available in two sizes: Mini and M.
- Suitable for ZZ, C-Fold and One Stop towels.
- The towel tray cover opens upwards, which makes it easy to refill the M dispenser.
- Katrin Mini towel dispensers are designed for small spaces. These products are suitable for Katrin One Stop folded towels with a maximum width of 210 millimetres.

Look and functionality plays a big role

What type of towels are best for your public toilet?

C-Fold

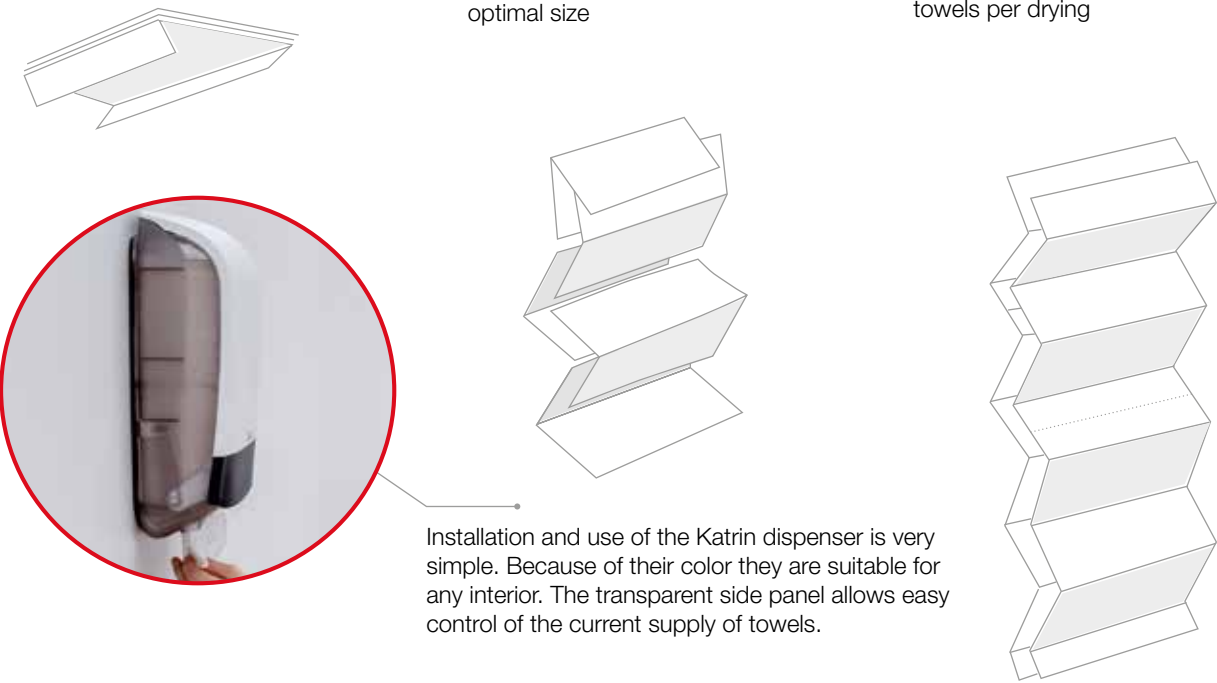

- ideal for toilets with low-intensity use
- can be used without a dispenser

Zig Zag

- the most commonly purchased towels
- W-shaped folded towels
- wide selection of quality, whiteness and softness
- Very popular towels thanks to optimal size

One Stop Towels

- best quality perforated towels
- W-shaped folded towels
- automatically unroll and released individually to control consumption
- average consumption of one to two towels per drying

Installation and use of the Katrin dispenser is very simple. Because of their color they are suitable for any interior. The transparent side panel allows easy control of the current supply of towels.

DISPENSERS KATRIN GIGANT

Many users, large rolls. The Gigant toilet paper dispenser helps maintain hygiene in the intensive use of a building while ensuring the highest levels of comfort and ease of use.

- Gigant toilet roll dispensers are available in two sizes: small and large.
- Adjustable lock – with key or keyless.
- The integrated blade holder allows the use of the remainder of each roll to the end.
- Large toilet paper rolls designed for places with a large number of users.

Unused roll function ("stub roll"), thus dispensing paper from the ending of the roll while replenishing the dispenser with a new roll allows the use of paper until the very end.

INDUSTRIAL TOWELS MADE FROM NONWOVEN FABRIC

Take care of machinery, facilities and your staff's hands. Quality nonwoven towels are ideal for specific applications in the automotive, electrical engineering and printing industries.

- Dust-free towels for specific applications.
- Exceptionally strong construction keeps the paper from tearing even when cleaning uneven and sharp surfaces.
- High volume and rate of absorption for the highest efficiency.
- Packaging keeps unused towels from getting dirty and allows easy dispensing.

METAL DISPENSERS

The Katrin Metal product collection is ideal for both public toilets with light or moderate traffic and places whose standard quality and prestigious rooms require a suitable appearance.

Both stainless steel and white metal dispensers guarantee style and elegance, while improving how public toilets look whether in an office, restaurant, school, health center or other public place.

Sleek design with many smart solutions

- Elegant and stylish look of brushed stainless steel or white metal suitable for most rooms.
- Solid construction proven to work in challenging environments.
- Protects against dust, dirt and moisture.
- Easy to clean.
- Lockable dispensers regulate consumption and reduce waste.
- Same key used for all dispensers.
- Simple to operate and maintain.
- Easy and fast to install with screws.

Smart details are an added value.

Greater amount of openings at the rear of the dispenser allows to use existing holes for the mounting.

Gigant dispensers have a new edge to cut the paper so a modest piece protrudes afterward.

The control peephole indicates when it is necessary to supplement paper or soap.

ACCESSORIES

Easily accessible tissue paper and paper towels are the most important elements in public toilets, though the overall look and feel of these places leave an impression on visitors alongside the details. The Katrin collection offers a wide range of public toilet accessories such as disinfectants, air fresheners, bags, waste receptacles and sanitary bags.

- Complete solution for different types of toilets.
- Matched containers and their contents.
- Practical – all elements come from one manufacturer.

These additional elements increase comfort during use. Users appreciate the building administrator's concern about their comfort and good feeling.
