<sup>1)</sup> GEL mode is not available on ErgoOne® E models: 1000 µl, 1250 µl, 5000 µl.

**MULTI-CHANNEL COMBO PACKS!** 10 µl to 300 µl multi-channel pipettes supplied with an individual stand (G9999-1004) and one rack of TipOne® pipette tips. 1250 µl models supplied with a pipette shelf holder (G9999-1009) and two racks of TipOne® pipette tips.

# Wide orifice pipette tips.

## PROTECT DELICATE SAMPLES

Protect your delicate samples from shear force and reduce flow resistance with Starlab’s wide orifice tips. These high quality pipette tips made from 100% virgin polypropylene are ideal for use in a range of applications including next generation sequencing, cell culture, and plant sciences.

- Eliminate cell fragmentation caused by mechanical shearing
- Maintain the integrity of high molecular weight DNA like gDNA or rDNA
- Ideal for pipetting viscous solutions such as glycerol, Triton™ X100, blood, milk, syrup etc

## EASY-OPEN RACKS

No fiddly latch to catch gloves, simply press and lift the lid

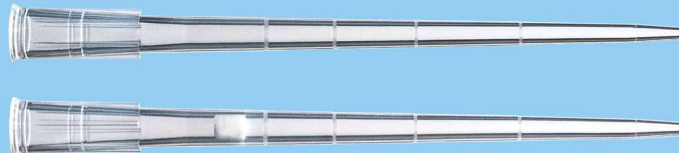

200 µl

Orifice inside diameter 1.5 mm

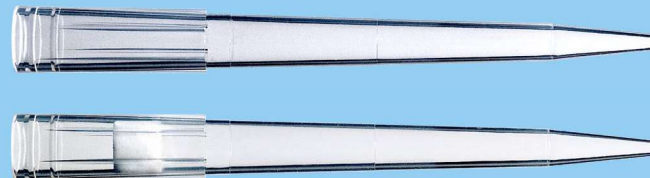

Our XL tip range.

200 µl XL

Orifice inside diameter 1.0 mm

1000 µl XL

Orifice inside diameter 1.63 mm

# Reducing environmental impact with the TipOne® closed-loop.

The TipOne® closed-loop recycling service.

## RECYCLING SERVICE IMPACT STATISTICS

**~117 tonnes PP<sup>2)</sup>**

By end of Jan-25, ~ 117 tonnes of raw material had been collected since the service began. This means our need for virgin material has been reduced by 117 tonnes, resulting in a direct saving of natural resources

**38.72 tonnes CO<sub>2</sub>**

The amount of CO<sub>2</sub> equivalent saved by the TipOne® recycling program in the year 2024.<sup>3)</sup>

**~1575 trees**

38.72 tonnes of CO<sub>2</sub> equivalent is the annual carbon sequestration of ~1575 trees.<sup>4)</sup>

**~40% Hyde Park**

1575 trees equates to almost 40 % of the number of trees (4000) currently growing in Hyde Park, London.<sup>5)</sup>

Starlab will repeatedly reuse the recyclate in its own TipOne® products, so the actual savings will increase with every cycle through the closed loop.

<sup>1)</sup> Rack base and lid.

<sup>2)</sup> Polypropylene.

<sup>3)</sup> Calculated by REMONDIS using calculation model developed by the Fraunhofer Institute for Environmental, Safety & Energy Technology (UMSICHT).

<sup>4)</sup> Calculated using average data per tree from [www.fortomorrow.eu/de/blog/co2-baum](http://www.fortomorrow.eu/de/blog/co2-baum)

<sup>5)</sup> [www.visitlondon.com/de/sehen-und-erleben/ort/610718-hyde-park](http://www.visitlondon.com/de/sehen-und-erleben/ort/610718-hyde-park)

TipOne® racks<sup>1)</sup> produced in Germany, are made entirely from recycled plastic and include 75 % TipOne® recyclate in the base.
