

NANOSpec

SPECTROPHOTOMETER

Microvolume & Cuvette

THE ALL-ROUNDER

1

TWO SOURCES

Microvolume and cuvette reader

One instrument, two reading modes - The FastGene® NanoSpec comes with a microvolume drop reader and a cuvette reader. For easy analysis of small and large sample volumes.

2

POWERFUL

Full spectrum analysis

The wide spectral width (190-850 nm) enables powerful measurements of DNA/RNA, proteins, protein assays or bacterial cultures.

3

INTUITIVE OPERATION

Easy to use software

The software of the FastGene® NanoSpec was designed for easy handling. The large touchscreen enables quick and intuitive navigation through different measurement modes.

INCREDIBLE DESIGN

The FastGene® NanoSpec combines everything you need in one compact instrument. Both the user interface and exterior are perfectly designed. With the intuitive software, measurements become a smooth and easy operation. The classic black and white look of the FastGene® NanoSpec adds that extra touch to every laboratory.

Get more information about the FastGene® NanoSpec on the back page.

WHAT ARE SCIENTISTS SAYING?

ABOUT THE NANOSPEC

„The FastGene® NanoSpec spectrophotometer is characterized by its simple and intuitive operation system. The desired measurement protocol can be found quickly using the touchscreen and the good menu navigation. The microvolume reader has an automatic mode, so many samples can be measured very quickly without having to make settings again.“

Dr. Manuel Franke - R&D, NIPPON Genetics EUROPE
Dueren, Germany

RELY ON HIGH PERFORMANCE

- **Two reading modes** - Microvolume reader and cuvette reader
- **Powerful** - Full analysis (190 - 850 nm)
- **Highest reliability** - 20+ measurement modes
- **Convenient operation** - Simple and intuitive menu
- **Cost-saving** - Affordable stand-alone device

VERSATILE

Over 20 measuring modes operating within a wide spectral width (190-850 nm) allow fast and easy analysis of nucleic acids, proteins, protein assays or bacterial cultures.

INTUITIVE

The software of the FastGene® NanoSpec was designed having the user in mind. The programs are easy to identify and straight-forward to use.

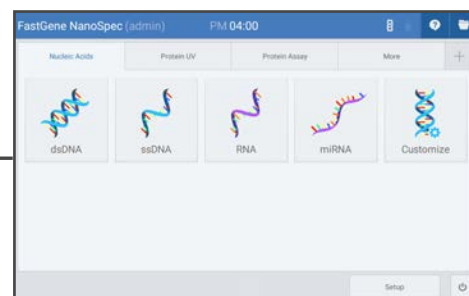

COMPACT

The light weight of the FastGene® NanoSpec combined with a small footprint, make it a compact and uncomplicated yet powerful stand-alone device.

SIMPLIFY YOUR MEASUREMENTS

Measurement modes for nucleic acids, proteins, protein assays or bacterial cultures are organized in distinct tabs and can be easily navigated via the large touch screen. Creating new and personalized programs is intuitive and self-explanatory.

Microvolume & Cuvette

DISCOVER NEW HORIZONS

1

TWO SOURCES

Microvolume and cuvette reader

All-in-one solution: the FastGene® NanoView comes with a microvolume drop and a cuvette readers for easy analysis of small and large sample volumes.

2

RELIABLE ANALYSIS

The specialist

Three distinct measurement wavelengths (260 nm, 280 nm, 600 nm) enable precise measurements of DNA/RNA, proteins and bacterial cultures.

3

INTUITIVE USAGE

Easy to use software

The FastGene® NanoView's user-friendly software with a touchscreen for quick and intuitive navigation through different measurement modes.

ABOUT US

NIPPON Genetics is a Japanese-German Life-Tech company, which focuses on the development of cutting edge products. We have over 30 years experience in the life-tech sector with offices in Tokyo and Kyoto, Japan, as well as in Dueren, Germany.

Need an online product demonstration?

We understand that, as a scientist, you would like to test the FastGene® NanoView before buying it. That is why we offer a product demonstration online or in your lab.

THE COMPACT SPECIALIST PHOTOMETER

- ✓ **Best device performance** - Microvolume drop and cuvette reader
- ✓ **Specialist** - For DNA, RNA, Proteins and OD600
- ✓ **Convenient usage** - 10 preset measurement modes
- ✓ **Smart** - Compact, silent and easy to use
- ✓ **Cost-saving** - Affordable stand-alone device

PRECISE

RELIABLE SAMPLE ANALYZER

The specialist device comes with 10 preset measurement modes enabling decisive DNA, RNA, protein or OD600 analysis.

CONVENIENT

SIMPLE TO USE SOFTWARE

The software UI of the FastGene® NanoView was designed for ease of use with large and self-explanatory icons.

SMART

STAND-ALONE DEVICE

The microvolume drop and cuvette readers under one lid make FastGene® NanoView ultra-small, silent and lightweight.

OPTIMIZED INTERFACE - EASY MEASUREMENT

The software of the FastGene® NanoView was made for easy handling. The main menu tab enables easy navigation through distinct measurement modes via touchscreen with intuitive icons.
