## Adventurer™ Semi-Micro, Analytical & Precision balances

20% discount

The OHAUS Adventurer™ series offers a comprehensive range of balances designed to meet the diverse needs of modern laboratories.

- **Accurate results:** these balances ensure accurate and efficient measurements for various applications.
- **Intuitive operation:** equipped with a color touchscreen display, for straightforward navigation and access to all functionalities.
- **Connectivity:** standard USB and RS232 ports facilitate seamless data transfer and integration with laboratory systems
- **User-friendly:** designed for ease of use, reducing training time and increasing productivity.
- **GLP/GMP compliance:** the balances support GLP and GMP guidelines by allowing comprehensive data management and traceability.

## Guardian™ 5000 Hotplates & Stirrers

Up tot 18% discount

Hotplates and stirrers designed for safety, precision, and efficiency.

- **SafetyHeat™ Technology** for overheat protection
- **SmartHeat™ System** to set temperature limits
- **SmartRate™ Control** for precise heating (up to 550°C) and stirring speed (50-1800 rpm), feature 3 temperature control modes for quick heating or precise heating without overshoot.
- **Run Dry Protection** shuts off heating when the probe is not submerged
- Intuitive User Interface with a large LCD display.
- **Data Logging and Remote Control** via RS232 for advanced connectivity.
- **Capacity:** 20 - 22 liter depending on the model

#### One device for all ultrasonic applications

- Simple monitoring: touchscreen for intuitive use
- Temperature control: with warning and shut-off function
- Heating: with dry-run protection
- Power: adjustable 10 – 100 %
- Process duration: accurate to the second, with automatic switch-off
- Energy-saving mode: ECO mode to reduce energy consumption.
- Program storage: Individual programmes
- Multilingualism: Selection of different languages
- Help menu: Clear instructions for safe operation
- Compatibility: Can be used with existing SONOREX accessories
- Process documentation: for traceability and quality assurance
- Class I medical device: Meets the highest medical standards
- Special features: SWEEP for uniform sound field, PULS for stubborn impurities, and DEGAS for rapid degassing.

### New! VALEGRO Recirculating Coolers with natural refrigerant

- Strong focus on user-friendliness and operational safety
- Working temperature range: -20 ... +40 °C
- Cooling capacity:
  - Valegro 350: 350 W at 20 °C
  - Valegro 500: 500 W at 20 °C
- High performance relative to compact size
- Integrated adjustable pressure pump for optimal adjustment to customer applications.
- Ergonomic design:
  - Inclined OLED display for easy operation
  - Illuminated level indicator for accessibility
  - Compact design allows placement under the lab bench
- Ethernet interface for network integration enables full remote access to all functions via PC

### EG Precision Balances

15 % discount

#### The classic with the robust tuning fork weighing system

Robust and highly accurate weighing solution for laboratories and industrial applications. With internal adjustment and a shockproof construction, this high-performance balance delivers reliability and precision.

- Stable temperature behavior for consistent results
- Short stabilization time for fast measurements
- Large LCD display with a capacity bar indicator
- Protective working cover included

Ideal for pharmaceuticals, research labs, and quality control environments.

### OBN 159 Professional Trinocular Microscope

15 % discount

#### High-quality, professional microscope designed for demanding laboratory applications.

With Infinity Plan optics and Koehler illumination, it ensures sharp contrast and exceptional clarity for research and diagnostics.

- Ergonomic, trinocular design for comfortable use and camera integration
- Objectives 4 x / 10 x / 20 x / 40 x / 100 x
- 20W Halogen or 3W LED illumination for precise contrast adjustments
- Large mechanical stage with smooth fine & coarse focus controls
- Modular system for customization with phase contrast, darkfield, and fluorescence

Perfect for medical, biological, and industrial research applications.

### ORL 94BS Digital Refractometer

15 % discount

#### Designed for laboratory and industrial applications

- Compact and maintenance-free
- User-friendly operation, portable & ergonomic design
- Wide measuring range (0–94% Brix, 1.3330–1.5290 nD)
- Automatic Temperature Compensation (ATC) for fast results
- Easy calibration with distilled water

Perfect for quality control, food & beverage industries, and scientific research.

### LABOPORT® N 96

10 % discount

Now\*: € 434.70

Ref: KN 322806/000000

**Reliable vacuum for clean results, compact, powerful and fast**

The smallest chemical resistant pump in the new LABOPORT® series, combining a high flow rate with a compact design, saving valuable space in the laboratory. Thanks to the manual rotational speed control, the N 96 is quiet, very energy efficient, and can be optimally adjusted in accordance with the application. Equipped with an easy-to-clean surface.

Potential applications include filtration, SPE, and liquid aspiration.

- Flow rate of 0.3 – 0.42 m<sup>3</sup>/h, ultimate vacuum of < 130 mbar abs.
- Very small footprint
- Integrated rotational speed control
- PTFE-coated diaphragm for use with aggressive/corrosive gases and vapors

### KS 15 A orbital shaker

10% discount

**Reliable orbital shaker designed for general laboratory applications, suitable for daily use.**

- Shaking Platform: 400 x 300 mm
- Maximum Load: 15 kg
- Shaking Speed: 30–420 rpm, steplessly adjustable
- Stroke: 17 mm
- Timer: 0–120 minutes or continuous operation
- Dimensions (W x D x H): 510 x 490 x 150 mm
- Weight: 18 kg

This shaker is ideal for laboratories requiring reliable and versatile shaking solutions.

Product	Reference	Normal price	Promo Price*

Rack system Combifix KS	ED 0052 071	€ 393.00	€ 353.70

## Mini powder samplers

### Stainless steel sampler for small quantities

5% discount

With an insertion depth of up to 300 mmn, multi-target point samples can be taken at different depths. Quick and easy to use at the push of a button. With 6 mm diameter.

Volume	Reference	Normal price	Promo Price*
0.01 mL	BÜRKLE 5346-3010	€ 538.35	€ 511.43
0.05 mL	BÜRKLE 5346-3050		
0.1 mL	BÜRKLE 5346-3100		

Now\*: € 31.95

Ref: QU 5304280

According to DIN 12 672. Crystal clear, with molded graduations for precise reading of volumes. For simple, basic cleaning and rinsing, the screw coupling on the tip can be removed. Lower breakage risk than for PC or glass containers. For determination of suspended matter in liquids (e.g., for industrial and municipal wastewater).

#### Revised scale

The graduation marks have been made finer for better readability. In addition, we have new circumferential scale lines at 10 ml and 100 ml.

#### Improved screw cap

New blue screw cap with an M14 thread and a firmly integrated seal. Please note that the new screw cap is not compatible with our previous sedimentation cone.

## Data loggers

### 174 mini data loggers

5 % discount

#### Reliable Monitoring for Optimal Climate Control and Product Safety

The testo 174 mini data loggers ensure precise and reliable monitoring of temperature-sensitive goods, products, and room climates. Whether with USB-C or Bluetooth connectivity, they offer efficient, seamless, and user-friendly data recording, making them the perfect solution for laboratories, warehouses, and logistics.

- Easy and intuitive data recording & analysis
  - USB-C version: Direct data transfer without a separate readout station
  - Bluetooth version: Wireless configuration and data analysis via the testo Smart App
- Seamless integration with existing PC software and previous USB devices
- Time-saving and efficient operation
- Fast and accurate digital documentation
- Error-free, continuous recording of all measurement results

Ideal for room climate control, food storage, pharmaceutical applications, and sensitive transport conditions.

## Calibrex™ organo 525 & solutae 530 bottle-top dispenser

20% discount

The Calibrex™ bottle-top dispensers have an excellent chemical resistance, high performance, and easy maintenance. Fitting most reagent bottles, it enables safe and reproducible dispensing in volumes ranging from 0.1 to 100 mL.

- Colour coding identification
- Integrated calibration system
- Long lasting performance stability
- Easy disassembling for maintenance
- Flow control stopcock (optional without, not in promotion)
- Autoclavable at 121°C / 250°F fully assembled

Choose between:

- **Organo 525:** suited for organics and non-crystallizing acid and base solutions
- **Solutae 530:** suited for acids, bases and salt solutions

## RBS detergents for laboratories

For manual, immersion, ultrasonic and automatic washing

- **Alkaline washing** ideal for removing organic contaminants like oils, greases, and biological materials
- **Neutral washing:** designed for sensitive materials, neutral detergents offer gentle cleaning while effectively removing oils and residues without affecting material integrity.
- **Acidic washing:** acidic detergents target inorganic residues, such as rust, scale, and salts, and are compatible with various sensitive materials.
- **Neutralization & rinsing:** neutralizing agents help eliminate residual carbonates and salts, improving rinsing efficiency for a residue-free finish

## Demineralized water treatment system tailored to your specific requirements

- Customised setups for the production of demineralised water from tap water
- Removing minerals from the water supply, achieved through a combination of anionic and cationic resins.
- Conductivity meters with visual indication or digital read-out possible
- Regeneration service
- Reverse osmosis installations and softeners possible

### Regeneration service

Over time, the resins reach saturation and the cartridge requires regeneration. A Filter Service driver collects the used cartridge while delivering a regenerated cartridge.

The graph illustrates the volume of water produced below 1 µS/cm with one cartridge. The amount produced depends on the starting hardness of the water. Mentioned values are indicative. Fo

Order your Rivaqua demineralised water installations **before 30/06/2025** and **your first cartridge will be regenerated for free!**

	Reference	Normal price	Now
Regeneration of a 20-liter cartridge	RV DEMI 20 REG-2	€ 259.30	€ 0

### Installation costs

Additional installation costs vary based on your location in Belgium / Luxembourg. Our technician starts from Lixhe. Distances mentioned are one way.

Km from Lixhe	Price
0 - 25 km	FREE
25 - 50 km	€ 100.00
50 - 100 km	€ 200.00
100 - 150 km	€ 300.00
> 150 km	€ 400.00

Together with our partner CSLM we can provide a full range of services to meet all needs for specific types of equipment. To ensure the safety of your staff, it is essential that all curcial laboratory equipment undergoes regular inspection and maintenance.

(stipulated in the Belgian Official Gazette, Articles 320 to 326)

CSLM offers a range of services covering all needs for specific types of equipment, including installation (IQ/OQ/PQ), inspection, maintenance, troubleshooting, metrology, and usage and maintenance advice. CSLM's expertise has been recognized by institutions for over 30 years , providing support for all brands of:

- Centrifuges
- CO<sub>2</sub> incubators
- Ultracentrifuges
- Universal ovens
- Cryostats
- Cryothermostats

Even for brands that are no longer on the market, CSLM can help you. With a stock of new, used and replacement parts for models from the oldest to the most recent.

### Technicians

With many years of experience working with centrifuges and laboratory equipment, the technicians bring in-depth expertise to every intervention. Their knowledge ensures precise diagnostics, efficient maintenance, and high-quality service to keep your equipment in optimal condition.

### Maintenance service description

During each maintenance visit, CSLM performs:

- Equipment identification and functionality check
- Complete cleaning and lubrication of mechanical parts
- Inspection of all control points and safety features
- Compliance validation with labor regulations
- Mechanical adjustments and calibration
- Replacement of worn parts
- Report discussion with the responsible supervisor
- Delivery of a detailed inspection report, also available online

[Open here a control report example](#)

**Further questions? Do not hesitate to contact your representative.**

### Service levels

- **Regulatory periodic inspection:** verification of safety points, manufacturer recommendations, and terminal parameters
- **T1 - preventive maintenance:** includes the regulatory inspection plus lubrication, dust removal, and minor adjustments
- **T1P - maintenance with parts:** T1 plus replacement of wear parts if necessary
- **Optional: metrology services**
  - Standard verification: one measurement per parameter
  - Program verification: one measurement per program
  - ISO 17025 accredited verification: nine measurements per speed with a certificate of compliance

### Starlab Pipette Maintenance & Calibration Service

Filter Service offers calibration service for pipettes through Starlab.

- **For all brands and types of pipettes:** single-channel and multi-channel, manual and electronic
- Pipettes **calibrated according to the stricter manufacturer's specifications** (ISO 655 also possible but less precise)
- Standard **calibration on ALL channels for multi-channel pipettes**
- One price for both manual and electronic pipettes
- Pipettes are manually disassembled, inspected, cleaned, and leak-tested
- Worn-out parts replaced if necessary
- Exterior of the pipette cleaned if needed
- Pipette checked according to the selected service level and recalibrated if required
- **Calibration sticker provided, including details of the service and replaced parts**

### Calendar 2025

**Next Maintenance Date: June 9–13, 2025**

Last Registration Deadline: May 30, 2025

Pipette Pick-up Starts: June 2, 2025

### Other dates:

11 - 15 August 2025

6 - 10 October 2025

15 - 19 December 2025

For larger quantities of pipettes, an on-site clinic can be arranged on alternative dates.

Use the economical refills to save on single-use plastic.

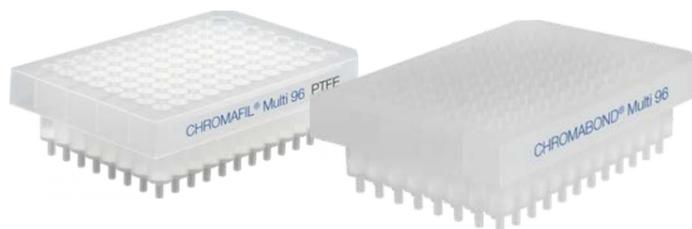

#### RECYCLE!

All system components are made from recyclable polypropylene (except the HDPE bag for loose tips).

Using the sterile refill uses already up to 63% less plastic for its manufacture compared to sterile racked product. Above this, Filter Service can provide you with a carton box for collecting all remaining recycable polypropylene plastics (wafers, refill packaging) from the Starlab TipOne refill system. Collection can be done by our driver with delivery of new tips. Contact your representative regarding the conditions.

Maximize efficiency in your sample preparation with our high-throughput chromatography promotion! Whether you're automating solid-phase extraction (SPE) or streamlining filtration workflows, we offer cutting-edge SPE automation solutions, 96-well SPE plates, and 96-well filtration plates from MACHEREY-NAGEL.

## CHROMAFIL Filtration multi 96-well plates

30% discount

Best choice for high-throughput (HTP) filtration with robot systems

- 96-well polypropylene plates for simultaneous filtration of 96 samples
- Economical by saving time and solvent
- Use of multi-channel pipettors facilitates liquid transfer steps
- Readily adaptable to all common automated/robotic handling systems
- Minimized dead volume (= 40 µL)

## CHROMABOND Automated SPE

30% discount

Performing SPE manually can be time consuming, especially when recovery and reproducibility are lacking due to sample variability. If SPE can be reliably automated, it becomes a more efficient and reproducible process. MACHEREY-NAGEL produces special SPE columns for Gerstel MultiPurposeSampler (MPS) and Gilson ASPEC systems (ASP).

Further questions? Do not hesitate to contact your representative.

Complete and chromatography tested portfolio of well plates for separation science applications. Prepare and analyze samples in less time with less lab bench space and storage space required per sample. With easier and quicker filling and sealing process using multi-channel pipetting tools and efficient transport of many samples in a single plate. SBS/ANSI standard footprint assures compatibility with all well plate capable prep stations and chromatography autosamplers.

## Standard 96 & 384 Block Systems, PP-Glass Coated

- Compatible with all solvents (including non-polar)
- Ideal for highly sensitive applications
- Designed for use in regulated laboratories
- Accommodate the lowest sample concentrations
- Suitable for hydrophobic samples, such as proteins, at the MSCERT level

Non-coated PP plates are available but not in promotion **30% discount**

Further questions? Do not hesitate to contact your representative.

Welcome to the world of multi-element standards! The solutions are designed to make your work easier, faster, and safer. Bernd Kraft as part of Analytichem is a **leading provider for high-quality standards, for over 30 years, tailored to your individual requirements.**

**A benefit for every industry:**

- Environmental Analysis: precise results for monitoring water and soil.
- Food Safety: clean and safe products thanks to accurate analyses.
- Industry: maximum quality assurance in your production.

**Further questions? Do not hesitate to contact your representative.**

**Three Quality Levels - Tailored to Your Needs**

No matter whether you conduct routine analyses or require the highest precision.

**Level 1: Efficient and Economical**

- Ideal for routine daily analyses
- Manufactured using analytically monitored concentrates or certified raw materials
- Prepared through precise volumetric or gravimetric production steps.
- No analytical final inspection; batch certificates show nominal concentrations without tolerance ranges
- Benefits
  - Fast availability
  - High quality at an attractive price
  - Perfect for daily use in industrial laboratories
- Typical Applications:
  - Quality assurance in production
  - Control measurements without complex requirements

**Level 2: Increased Safety through Verified Precision**

- Includes an independent ISO 17025-accredited laboratory report
- Analysis results are provided as an average of four measurements
- NIST traceability through independent NIST-referenced standards
- Higher accuracy for analytical laboratories requiring reference materials
- Benefits:
  - Independent, accredited laboratory report
  - Greater security through documented measurements
  - Traceability to NIST standards
- Typical Applications:
  - Audits and validations
  - Laboratories with higher accuracy requirements

**Level 3: Certified Reference Materials (CRM) for Highest Standards**

- Since 2023, all AnalytiChem Group companies are ISO 17034-certified reference material manufacturers
- Internal production and analysis ensure the highest quality
- Batch certificate included
- Ideal for accredited applications requiring certified precision and long-term stability
- Benefits:
  - Long-term stable and homogeneous materials
  - Certificates with DAkkS logo for maximum security
  - Developed for the strictest requirements
- Typical Applications:
  - Accredited laboratory analyses
  - Legally required quality controls

**Production of single-element standard solutions on individual request**

Possible on the basis of the following element concentrations and combinations:

- **2 to 200 mg/l in nitric acid 5%**  
Al, As, B, Ba, Be, Bi, Ca, Cd, Co, Cr, Cu, Dy, Er, Eu, Fe, Ga, Gd, Ho, In, K, La, Li, Lu, Mg, Mn, Na, Nd, Ni, P, Pb, Pr, Re, Sc, Se, Sm, Sr, Tb, Th, Tl, Tm, V, Y, Yb, Zn
- **2 to 1000 mg/l in nitric acid 5 %:**  
Al, Ca, Cu, Fe, K, Mg, Na, P, Zn
- **2 to 200 mg/l in hydrochloric acid 15 %:**  
Au, Ir, Pd, Pt, Rh, Ru
- **2 to 200 mg/l in nitric acid 5 % with HF 0.5 %:**  
Ag, Hf, Mo, Nb, Sb, Sn, Ta, Ti, W, Zr, Te

**AIT Health Caps**

Protect your health with the AIT Smart Safety caps for solvent bottles and waste containers are designed first and foremost to protect your health, with an 80% reduction in gas emissions. These caps can be custom-made on request.

**Smart Healthy Caps**

- Made of inert materials resistant to chemicals
- One-way air check valve allows for low cost safe and secure solvent extraction
- No solvent evaporation
- No mobile phase external contamination
- 360° rotation of central part allows good ease of installation

**Smart Waste Caps**

- Airtight cap
- Variable number of holes drilled for effluent tubes from the HPLC system
- Activated charcoal cartridges allows absorption of 98% of the solvent vapours
- DIN 51 (S55), GL45, DIN 50, DIN 60 (S61) and DIN 90 (S90)

The charcoal cartridges and air check valves are compatible with systems from other brands like SCAT

**Air check valve 10 pièces**  
**Service life: 1 year**  
**Ref: AI SHC-SV10**  
**Price\*: € 153.90**

**Charcoal cartridge filter 100g**  
**Service life: 1 year**  
**Ref: AI FC-100+timer**  
**Price\*: € 141.50**  
Also available in set of 3 with reduced price.

Catalog

**Chemsolute: laboratory chemicals**

Broad range of laboratory chemicals, including acids, reagents, and chromatography solvents, designed for modern laboratory applications. Most products meet Ph. Eur., ACS, or ISO standards, ensuring reliability and quality. CHEMSOLUTE® also provides high-purity sustainable "green" alternatives for safer and eco-friendly lab practices.

Catalog

**Vici jour: solutions for chromatography**

Filter Service offers a wide range of Vici Jour products, including low-pressure, high-pressure, and capillary fittings made from high-quality polymers (PEEK, ETFE, PFA, FEP & PTFE) and stainless steel. Additionally, we provide tubing, in-line filters, and other accessories to ensure the optimal performance and protection of your chromatography system.

### FastGene® Scriptase ReadyMix

Free samples, 25% discount

Nippon Genetics introduces their new **FastGene Scriptase III cDNA 5x Ready-Mix**

- With its improved stability, Scriptase III is stable up to ~55 °C and can generate long cDNA fragment lengths up to 12 kB.
- It also shows excellent productivity, generating high yields and high concentrations of cDNA.
- Excellent sensitivity of the enzyme to synthesize cDNA from smallest amounts of template DNA

FastGene Block & Go (500 ml)	NG FG-CH05	€ 88.30

### FastGene PAGE Protein System

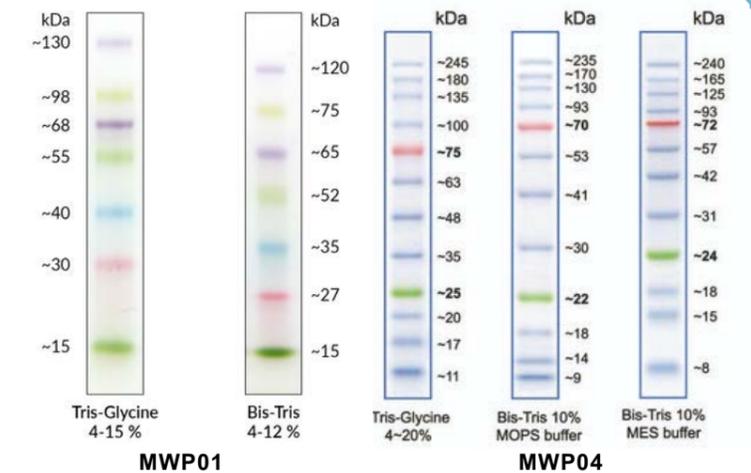

- Complete set for PAGE protein analysis
- Most flexible use for 1-4 (pre-cast or hand-cast) gels
- Compatible with different pre-cast gels (Bio-Rad™, ThermoFisher, FastGene®)
- Hand-cast gel set included (1 mm gels)
- Easiest gel hand-casting – No leaking!
- Glass plate holder and tube holder included
- Additional 0.75 mm / 1.5 mm hand-cast sets available

[Product flyer FastGene® PAGE system](#)

[Tutorial video FastGene® PAGE system](#)

### Prestained protein markers

### FastGene Q-Stain

**Protein staining like Coomassie Blue but simpler and faster**

- Ultra-fast staining: results in 10 minutes or less
- Single-Step procedure: no washing, fixing or destaining
- High sensitivity: 10 ng bands detectable
- Flexible: no over staining
- Efficient: only 25 mL per gel
- Methanol free : no gel shrinkage or protein methylation
- Acetic acid free: no protein acetylation
- Compatible for mass spectrometry: no residual methylation or acetylation

### Elevate your protein gels with our FAS X gel documentation system

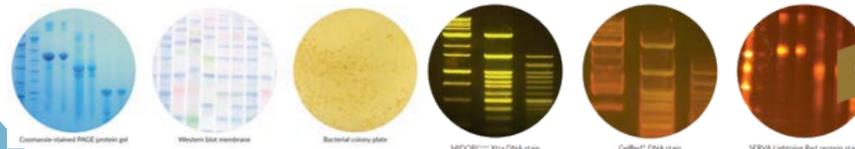

Discover next generation of gel imaging system with **Blue/Green & White LED light**

- Safe BLUE/Green LED light (470-520 nm) to protect user and samples
- Suitable for any fluorescent dye
- Transilluminator area of 26 cm x 21 cm
- Additional white light to visualize colourimetric PAGE protein gels
- Brilliant image quality (20 MPixel colour camera with 1 inch CMOS sensor)
- Very user-friendly software via the 13.3" full HD touch screen
- Detecting nucleic acids at concentrations as low as 2 ng
- Password-protected data security

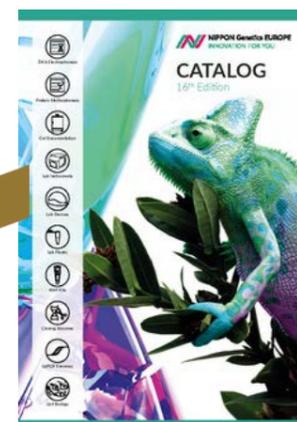

German Innovation Award WINNER 2024

### Nippon Genetics catalog

Discover more protein electrophoresis and other life sciences products in their catalog

With LABSOLUTE<sup>®</sup> and CHEMSOLUTE<sup>®</sup> already part of our trusted product portfolio, we are thrilled to announce the expansion of our range with a third branch **BIOSOLUTE<sup>®</sup>** – offering **innovative and high-quality solutions for life science laboratories (microbiology, molecular biology, cell culture & histology).**

### Portofolio

#### Ready-to-use culture media

- Contact plates (55 mm)
- Membrane filtration plates (55 mm)
- Prepared plates (90 mm) with single, double and triple wrapping
- Solid and liquid culture media
- Solutions in bags, bottles, and tubes

#### Dry culture media

Dehydrated microbiological media and components (powder) in the pack sizes 500 g, 2 kg, 5 kg, and 10 kg, as well as supplements.

### Benefits

#### Selected raw materials

Only raw materials that meet the highest standards are used for the production of microbiological culture media. Ensuring a particularly reliable batch consistency.

#### Production in the cleanroom

BIOSOLUTE<sup>®</sup> ready-to-use media are produced automatically in state-of-the-art cleanroom conditions.

#### Strict quality control

The quality control follows ISO 11133 and/or Ph. Eur., depending on the medium. Performance tests for solid culture media are carried out in an ISO 17025 certified laboratory (ENAC accreditation).

#### Certified quality

Every step of the culture media production is carried out in the ISO 9001 and ISO 13485 certified production.

### Microbiological hygiene control

#### Contact plates ready-to-use

- For microbiological surface monitoring
- Storable at room temperature with long shelf life
- The agar plates have a slightly convex agar surface that curves over the edge of the Petri dish.

**Serum-free cryopreservation media for secure long-term cell storage**

Simplify cryopreservation with Bambanker™, a **serum-free, ready-to-use cell freezing medium** that **ensures over 90% viability and recovery** of even the most sensitive cell lines.

**Eliminate** the need for complex, **stepwise freezing** protocols and expensive ultralow freezers. Bambanker™ guarantees consistent results, preserves cell integrity, and supports long-term storage **at -80°C or -196°C**. Suitable for all common and sensitive cell lines, including stem cells. Bambanker™ is the easy, efficient solution for secure and reproducible cryopreservation.

**Comparison Bambanker™ and conventional method**

**Bambanker™ Cryopreservation Method**

**REQUEST YOUR FREE SAMPLE!**

**Bambanker™ 100 mL**  
Ref: NG BB05  
Price: € 128.10

**Conventional Cryopreservation Method**

**Serum Requirement**

Cells are resuspended in a cryopreservation medium containing fetal bovine serum (FBS), which adds variability and risks contamination.

**Stepwise Freezing**

Cells are frozen gradually at a controlled rate, often requiring a programmable freezer or liquid nitrogen for consistency.

**Time-Consuming Process**

Sequential temperature adjustments are necessary to prevent ice crystal formation and ensure cell viability.

**No Serum Dependency**

Bambanker™ is serum-free, ensuring consistent results without lot-to-lot variability.

**No Stepwise Freezing**

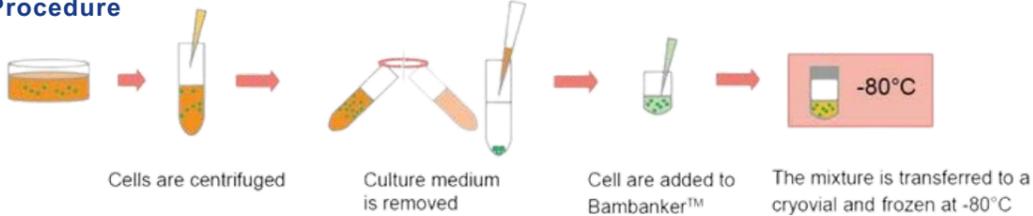

Direct freezing at -80°C with ready-to-use medium, eliminating time-consuming procedures.

**Simplified Protocol**

Only requires resuspension in Bambanker™, transfer to cryovials, and freezing—no special equipment needed.  
**Also available in 20 mL and 5 x 20 mL**

**Procedure & cell database Bambanker™**

**Procedure**

[Open application note](#)

[Cell Bank Database](#)

**Cell lines cell proliferation after thawing**

Comparing with currently used commercially available preservation media delivered proliferation for all four cell lines cell with Bambanker™. Consult the application note for more details and the cell bank database if you're cell line has been tested before.

**Variants for cells with special needs available**

**WHEATON® CELLine™ Flask**

- Ideal for high density cell culture, designed to enhance small scale bio-production for antibody and protein generation
- Available in 1000ml flask for suspension (CELLine 1000) or adherent (CELLine 1000-AD) cell culture and 350ml flask for suspension culture only
- Disposable and ready-to-use
- Multi-harvest operation ensures a cost efficient solution for antibody and protein production
- Ideal for use with cell lines such as Hybridoma, CHO, HEK, BHK, Sf9

Media Compartment	Cell Compartment	Model	Pcs	Reference	Price 2025

**CytoOne plastics**

**Starlab cell culture plastics**

CytoOne® offers certified testing and consistent surfaces made from optically clear, premium grade polystyrene / polycarbonate. CytoOne® also offers convenience with features like grippers on dishes and plates for secure handling, easy-open resealable packaging on flasks, and complete 360° chimney wells on plates to prevent cross contamination.

Since 1968, Erlab has been revolutionizing laboratory safety with its advanced filtration technologies. As an **expert in filtration fume hoods and systems protecting against chemical, biological, and airborne pollutants**, Erlab captures contaminants at the source, ensuring optimal user protection.

**Erlab's goal?** To eliminate inhalation risks and guarantee cleaner air. With their autonomous and connected solutions, they push the boundaries of innovation, combining safety, performance, and environmental responsibility. Provide your laboratory with healthy air and uncompromising protection.

## Solis Essentiel & Premium Biological Safety Cabinets

The **patented Twist and Clean® system simplifies the cleaning** of the inner glass of the biological safety cabinet.

**Available in both Essentiel and Premium versions, with four different product sizes**, this innovative solution allows the glass to be tilted for a complete cleaning, all while maintaining a comfortable posture. **It eliminates contamination risks and guarantees optimal protection** while ensuring maximum efficiency.

### Unmatched Ergonomics

The Solis Essentiel and Premium safety cabinets combine innovation and comfort. Their sleek design and ergonomic features - such as the 10° angled glass and glass sides - ensure smooth use while reducing fatigue. With intuitive voice control and high performance LED lighting, each user enjoys a pleasant working experience, maximizing their efficiency.

### High-Level Performance

With its modern touchscreen interface, the Solis safety cabinets offer ease of use with innovative applications: timer, camera, music, and even direct access to after-sales service. The customization of the PSM allows each user to adapt the equipment to their specific needs. More than just a cabinet, it's a true work tool that optimizes productivity.

### Optimal Safety

The Solis Essentiel guarantees enhanced safety with advanced features such as HEPA H14 filtration and EC fans, ensuring perfect airflow management. Every procedure is carried out under the best possible conditions, minimizing contamination risks. The anti-lint grid prevents debris, offering complete peace of mind.

### Custom Configuration

Each laboratory has its own specific requirements, and the Solis Essentiel is designed to meet them perfectly. Erlab offers a range of custom options, such as adjustable legs, UV or H2O2 decontamination systems, cable passages, and electrical outlets, ensuring seamless integration into your workspace. Additionally, accessories such as armrests or an uninterruptible power supply allow you to optimize comfort and ensure maximum product performance.

Erlab's website

## Smart filtering chemical fume hoods

Erlab filtration fume hoods are advanced filtration solutions, offering **optimal protection against toxic gases and chemical emissions**. Designed to meet diverse laboratory needs, the range **includes seven filtration hoods**.

Thanks to their **high-performance filters**, which are 10 to 1,000 times more powerful than traditional filters, they capture contaminants at the source, **ensuring 99.995% pure air both inside and outside the laboratory**. These hoods deliver **enhanced safety while preserving operator health and maintaining a healthy work environment**.

More information on Erlab's website

### Maximum Safety

Erlab fume hoods capture chemical pollutants at the source, ensuring absolute safety for your team. Provide your operators with a 100% secure work environment, free from inhalation risks. With ultra-efficient filtration, protect everyone in your lab and enjoy total peace of mind.

### Exceptional Performance

Equipped with the most powerful filters on the market, Erlab filtration fume hoods efficiently capture toxic gases and other pollutants. Their technology provides exceptional filtration performance for optimal air quality both inside and outside the laboratory.

### Connectivity

The Smart interface allows real-time monitoring of filtration efficiency, offering complete control over the proper functioning of the equipment. This technology ensures peace of mind for each user and allows them to focus fully on their research.

### Economy and Durability

Erlab filtration fume hoods enable substantial energy savings while reducing environmental impact through their optimized design. They offer an economical and eco-friendly solution for chemical handling in laboratories.

# Precision in every drop. Your new RepeatOne® S dispenser.

## YOUR FIRST CHOICE FOR CHALLENGING LIQUIDS

Starlab's RepeatOne® S provides fast, repetitive dispensing of volumes between 2.0 µl and 5.0 ml with maximum precision and accuracy. Perfect for routine or research applications in diagnostics, molecular biology, and environmental analysis, the user-friendly operation and sturdy design makes RepeatOne® S the first choice when handling challenging liquids. RepeatOne® S provides high precision dispensing of liquids with high viscosity, high density or high vapor pressure.

- Up to 49 dispenses from the same sample
- Fast, easy tip insertion
- Increased chemical resistance through innovative plastic materials
- Conforms to EN ISO 8655 and ASTM E1154 89 (2003)
- Shelf mount included
- PFAs free

# PCR plates.

## CERTIFIED PCR-INHIBITOR FREE

- Ultra-thin, uniform wells for optimal heat transfer and high reaction efficiency
- Raised well edges help prevent sample evaporation when sealed
- Plates certified RNase, DNase, DNA & PCR Inhibitor free. Tested Pyrogen free

### Does our plate fit your cycler?

Starlab PCR plates have a precise fit for most thermal cyclers. Check your cycler on our compatibility chart.

[starlab.click/pcr-compatibility](http://starlab.click/pcr-compatibility)

## PCR Plates

### Universal cycler compatibility 3 options!

**96-Well Non-Skirted PCR Plate**  
compatible with most 0,2 ml cyclers (excl. FAST)

- ▶ **Art. No. E1403-1200**  
10 plates. List: € 27.01 **OFFER: € 22.96**
- ▶ **Art. No. E1403-1209 (Opaque white plate)**  
10 plates. List: € 40.08 **OFFER: € 34.07**
- ▶ **Art. No. E1403-0100 (Cuttable plate)**  
10 plates. List: € 30.12 **OFFER: € 25.60**

### Reduce contamination

**96-Well Non-Skirted PCR Plate**  
with elevated wells

- ▶ **Art. No. E1403-2200**  
10 plates. List: € 39.25 **OFFER: € 33.36**

### Plate for TAQMan®

**96-Well Semi-Skirted PCR Plate**  
Raised Rim (for TAQMan®)

- ▶ **Art. No. E1403-8200**  
10 plates. List: € 32.78 **OFFER: € 27.86**

### Great for ABI® cyclers!

**96-Well Semi-Skirted PCR Plate**  
Standard height

- ▶ **Art. No. I1402-9700**  
10 plates. List: 27.83 **OFFER: € 23.66**

**BARCODED skirted and semi-skirted plates also available. Contact your Starlab distributor for details.**

### Great for ABI® FAST® systems!

**96-Well Semi-Skirted PCR Plate**  
Low Profile (for FAST® Systems)

- ▶ **Art. No. E1403-7700**  
10 plates. List: € 50.60 **OFFER: € 40.48**

### Plate for Roche Lightcycler®

**96-Well Semi-Skirted PCR Plate**  
for LightCycler® 96 or LightCycler® 480

- ▶ **Art. No. I1402-9909 (Opaque white plate)**  
10 plates. List: € 40.31 **OFFER: € 32.25**

### Universal cycler compatibility

**96-Well Semi-Skirted PCR Plate**  
Straight edges

- ▶ **Art. No. I1402-9800**  
10 plates. € 39.46 **OFFER: € 31.57**

### Great for BioRad® cyclers!

**96-Well Skirted PCR Plate**  
Low Profile

- ▶ **Art. No. E1403-5200**  
10 plates. List: € 33.39 **OFFER: € 26.71**

# Plate sealing.

## ♥ SEALS FOR PCR

**Aluminium StarSeal, 36 µm**  
100 self-adhesive seals

Art. No. E2796-9792

List: € 64.20  
**OFFER: € 54.57**

**Clear, Polyolefin StarSeal, 50 µm**  
100 self-adhesive seals

Art. No. E2796-9793

List: € 64.20  
**OFFER: € 54.57**

## ♥ SEALING FOR qPCR

**X-Clear Advanced Polyolefin StarSeal, 50 µm**  
100 self-adhesive seals

Art. No. E2796-9795

List: € 195.20  
**OFFER: € 165.92**

**X-Clear Polyolefin Sealing Film, 96 µm (incl. plastic seal applicator!)**  
100 self-adhesive seals

Art. No. E2796-9895

List: € 289.80  
**OFFER: € 246.33**

**8-Strip PCR Caps, Flat (Xtra-Clear)**  
125 Strips

Art. No. I1400-0900

List: € 19.20  
**OFFER: € 16.32**

# PCR strips.

## OPTIMAL HEAT TRANSFER, OPTIMUM CERTIFICATION

- Ultra-thin, uniform walls ensure optimal heat transfer.
- Supplied in resealable bags to minimise contamination risk.
- Certified RNase, DNase, DNA & PCR Inhibitor free. Tested Pyrogen free.

### 8-Strip Tube & Caps, Combo Packs

Description	Pack Size	Article No.	List	OFFER*
0.2 ml 8-Strip PCR Tubes and 8-Strip PCR Caps, Domed	125 pairs	<b>I1402-6700</b>	€ 98.00	<b>€ 83.30</b>
0.2 ml, 8-Strip PCR Tubes and 8-Strip PCR Caps, Flat (X-Clear)	125 pairs	<b>I1402-5700</b>	€ 91.88	<b>€ 82.70</b>

### Non-Flex 8-Strip PCR Tubes with Individually Attached Flat Caps, Xtra-Clear

Description	Pack Size	Article No.	List	OFFER*
0.2 ml 8-Strip Non-Flex PCR Tubes, Individual Attached Flat Caps (X-Clear)	120 strips	<b>I1402-3700</b>	€ 78.60	<b>€ 66.81</b>

The rigid, triple-link between the tubes provides increased stability for easier & faster handling

# Rotor-Gene® Q strips.

Discs and tube strips for use with the Qiagen Rotor-Gene® Q Real-Time Rotary Analyzer

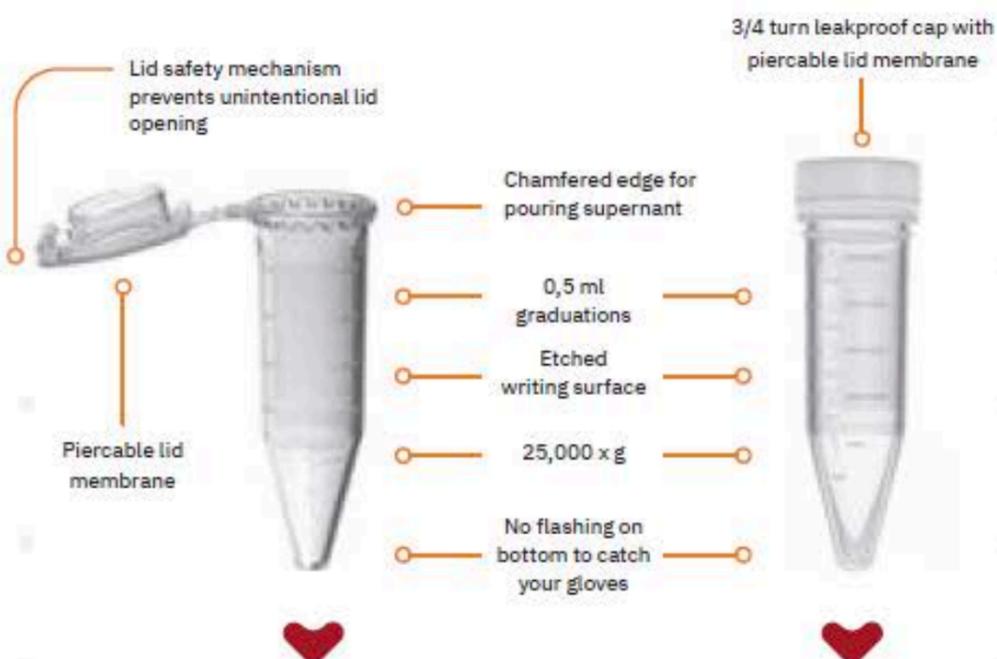

Description	Pack Size	Article No.	List	OFFER*
0.1 ml 4-Strip Rotor-Gene® Style Tubes & Caps	250 pairs	<b>I1402-0400</b>	€ 149.50	<b>€ 127.08</b>

# 5.0 ml Tubes

**WHEN 2,0 ml IS TOO SMALL AND 15 ml TOO BIG, WE HAVE THE PERFECT ANSWER!**

- Ultra clear tubes for excellent sample visibility
- Same diameter as 15 ml tubes, so will fit your existing 15 ml bench racks
- Certified RNase, DNase, DNA & Pyrogen free
- Use down to -196 °C (gas phase only)

**5.0 ml Centrifuge Tube with Flip Cap**  
2 x 100

Art. No. E1450-5000  
List € 84.30 **OFFER: € 54.66**

**5.0 ml Centrifuge Tube with Flip Cap, (Sterile)**  
10 x 20

Art. No. E1450-5010  
List € 74.40 **OFFER: € 63.24**

**5.0 ml Centrifuge Tube with Screw Cap, (Sterile)**  
10 x 20

Art. No. E1450-5050  
List € 84.40 **OFFER: € 71.40**

# PCR sample racks.

## StarChill CHILLER RACKS

The centre of the rack changes colour when frozen and then gradually turns back to the original colour (~7 °C) as it warms up, to provide you with a visual indication of the rack's temperature.

Description	Pack Size	Colour	Article No.	List	OFFER*
 <b>StarChill PCR</b> For use with one 0.2ml PCR Plate or 0.2 ml PCR Tubes or Strips	2	Pink /Purple	E2396-2004	€ 98.70	€ 83.90
		Yellow /Green	E2396-2006	€ 94.10	€ 79.99
 <b>StarChill MCT</b> For use with 0.5, 1.5 and 2.0 ml Microcentrifuge or Screw Cap Tubes	1	Pink /Purple	E2396-5634	€ 85.00	€ 72.25
		Yellow /Green	E2396-5636	€ 85.00	€ 72.75
 <b>StarChill SBS</b> For use on AUTOMATED SYSTEMS with one 0.2 ml PCR Plate or 0.2ml PCR Tubes or Strips	2	Pink /Purple	E2396-5654	€ 108.50	€ 92.23
		Yellow /Green	E2396-5656	€ 108.50	€ 92.23
 <b>StarChill qPCR</b> For 64 x 0.1 ml Rotor-Gene tubes, 16 x 0.2 ml tubes & 4 x 0.5 ml tubes	2	White /Blue	E2396-3008	€ 108.50	€ 92.23

Description	Pack Size	Colour	Article No.	List	OFFER*
 <b>StarPCR Work Racks</b> For use with one 0.2ml PCR Plate or 0.2ml PCR tubes or strips	5	Mixed (Blue, Green, Red, Violet, Yellow)	E2396-5240	€ 39.75	€ 33.79

Description	Pack Size	Colour	Article No.	List	OFFER*
 <b>Double-Sided PCR Work Rack</b> For use with 168 x 0.2 ml tubes and 12 x 1.5 ml tubes on one side, 40 x 0.5 ml tubes & 12 x 1.5 ml tubes on the other	5	Mixed (Blue, Green, Orange, Pink, Yellow)	E2396-0599	€ 004.60	€ 88.91

Description	Pack Size	Colour	Article No.	List	OFFER*
 <b>PCR Workstation Rack</b> Rack with lid for use with one 0.2ml PCR Plate or 0.2ml PCR tubes or strips	5	Mixed Neon (Blue, Green, Orange, Pink, Yellow)	E2396-9649	€ 40.91	€ 34.77

# GuardOne® Workstation.

FROM: € 3431.70

Contents not included.

## AVOID CROSS-CONTAMINATION DURING AMPLIFICATION OF DNA/RNA

Protect your valuable samples and reagents<sup>1)</sup> to save time and costs by avoiding the need to repeat contaminated work.

Starlab's GuardOne® Workstation provides

- An ideal clean and controlled environment that can help you achieve accurate PCR results
- Convenience! All functions are controlled via the glove compatible, easy to use touchscreen
- Quick, tool-free HEPA filter exchange and UV lamp exchange

Perfect for your PCR / qPCR applications or any other application that requires a controlled, clean environment.

OFFER: €6 330.60

- One-touch QuickStart / QuickStop settings
- Efficient UV<sub>245 nm</sub> decontamination with timer function
- Efficient, class H14 HEPA filter with pre-filter provides ISO class 5 working environment<sup>2)</sup>
- Real-time airflow measurement<sup>2)</sup>
- Life-span monitoring of consumables
- Virtually maintenance-free
- Easy to clean
- Easy, tool-free 15-minute assembly

<sup>1)</sup>GuardOne® is not designed to protect the user.  
<sup>2)</sup>Laminar flow models only.

# Starlab Vortex Mixer.

## THE TOUCH OF A VORTEXER. THE POWER OF A MIXER

Ideal for the gentle mixing of samples right up to vigorous vortex mixing and the resuspending of cells or chemical pellets.

- Precise vortexing speeds
- Speed range: 300 to 3.500 rpm
- Unique, glove compatible touch screen
- One-touch pre-set options for speed / time
- Touch or continuous operation
- End of run audible alarm
- Power-saving sleep mode

### Vortex Mixer.

**Art. No. S8010-0000**

List: € 409.00

**OFFER: € 347.65**

**SPEED RANGE**  
300 – 3.500 RPM

**WATCH VIDEO**

**Adapter for Tubes**  
For mixing up to 15 x 1,5/2,0 ml tubes up to 1.500 rpm

**Art. No. S8010-0011**

List: € 30.94

**OFFER: € 26.30**

**Adapter for Microplate**  
For mixing one microplate up to 1.500 rpm

**Art. No. S8010-0012**

List: € 18.99

**OFFER: € 16.14**

Tubes and plate are not included with the adapters.

# Starlab Minicentrifuge.

## IDEAL FOR YOUR QUICK SPIN DOWNS!

The Starlab Minicentrifuge is a compact and solid unit that delivers a quiet, smooth operation and a maximum speed of 6.500 rpm.

- Quick start on lid closure
- Magnetic lid lock
- One-touch STOP for fast braking and automatic lid release

**WATCH VIDEO**

**QUICK START**  
just close the lid  
to start spinning!

**QUICK & EASY  
TOOL FREE  
ROTOR EXCHANGE**

**ONE-TOUCH  
STOP** for fast  
braking and  
lid release

## SUPPLIED WITH TWO ROTORS

**TUBE ROTOR** holds up to eight microcentrifuge tubes or eight conical or skirted screw cap microtubes

**PCR STRIP ROTOR** holds two, 0,2 ml 8-strips or 32 x 0,2 ml single tubes

**MAGNETIC  
LID LOCK**  
aids easy,  
one-handed  
operation

## Minicentrifuge.

**Art. No. S8030-5000**

List: € 429.40

**OFFER: € 364.99**

# Thermomixer-Mixer HC.

The tiny footprint of the Mixer HC fits on any bench to provide a convenient, all-in-one solution that simplifies PCR workflows:

WATCH VIDEO

## PRE-PCR STEPS

- Isolation of genomic DNA and RNA
- Plasmid DNA purification
- Reverse Transcription of mRNA
- Mixing of PCR setups

## POST-PCR STEPS

- Purification of DNA from agarose gels
- Cloning of DNA fragments (Restriction digestion, A-tailing, Phosphorylation, Ligation, Transformation into host cells, Cultivation of host cells)

## FUNCTIONAL!

INTERVAL MIX: alternate between mixing & resting  
PROGRAM MODE: create your own protocols  
SHORT MIX: instant mixing at the push of a button

**DIGITAL DISPLAY**  
for precise adjustment.  
Clear menu navigation and  
simple parameter setting

## Thermomixer-Mixer HC

Art. No. S8012-0000 (excludes Thermoblock)

List: € 2938.00

**OFFER: € 2350.40**

## HEATING OR COOLING

Precise temperature control  
up to 99°C or down to  
13°C below room temperature

## MIXING

Up to 1.500 rpm

## TIMING

1 min to 99:59 hours

## USE WITH ALL POPULAR TUBES AND PLATES

### Photometer and heating block service

#### Photometer inspection

To check if your photometer still meets the necessary requirements for obtaining reliable results in accordance to ISO 9001 we offer an inspection service for your NANOCOLOR filter- or spectrophotometer.

In this service we check if the accuracy and linearity of the photometer for all different wavelengths in the filter photometer and the range of your spectrophotometer are met to the analytical quality standards. With the inspection executed by our trained personnel you will receive an **official certificate so your next audit will be a breeze**. We recommend a yearly inspection.

#### Heating block calibration

To check if your sample digestion is still reliable we offer a calibration service for your NANOCOLOR heating blocks for a comprehensive analytical quality assurance.

In this service we use an electronic temperature sensor which measures the actual temperatures and compares them to the nominal temperatures that have been programmed in the heating block. The heating block will internally adjust itself after this. We can provide you with a comprehensive test protocol for internal documentation. Our trained personnel will provide you **with an official certificate** for you next audit.

Service	Reference	Price*
NANOCOLOR Photometer	FS SERV PHOTOMETER	€ 150
NANOCOLOR Vario C2 single block	FS SERV HEATC2	€ 350
NANOCOLOR Vario 4 dual block	FS SERV HEAT4	€ 450

### HACH conversion kit

If you already own a **HACH photometer (DR3900 or DR6000)** but want to use the MACHEREY-NAGEL test kits, a simple conversion kit is now available.

- Efficient: reduces operating costs without additional investment
- Intuitive: user-friendly with automated method import and easy kit processing
- Reliable and verified measurement results with MACHEREY-NAGEL test kits.

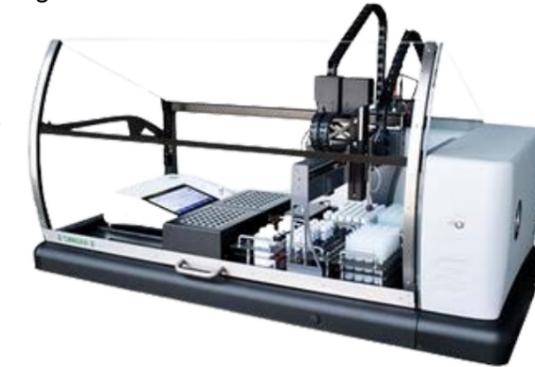

### Automation

**Save time in the lab by automating.**

For the automation of NANOCOLOR® tube testing, MACHEREY-NAGEL have partnered with Skalar.

All analysis steps, sample preparation, digestion and measurement automated.

### Instruments

#### NANOCOLOR® Advance spectrophotometer

- Precise and reliable measurement results in the daily laboratory routine for analysis of water and wastewater
- Wavelength spectrum of 340 - 800 nm
- Can also be used mobile due to its rechargeable battery
- Allows the measurement of all photometrically evaluable kits of MN
- Automatic detection of interfering turbidity (NTU-Check)
- 10, 16, 20, 24, 40 and 50 mm cuvette slot
- Barcode technology

#### NANOCOLOR® PF-12Plus photometer

- Filter photometer tailored for mobile water analysis
- Suitable for all MACHEREY-NAGEL photometric tests
- Automatic detection of interfering turbidity (NTU-Check)
- Cuvette slot for 16 mm OD round tubes
- Wavelengths: 345 nm / 436 nm / 470 nm / 540 nm / 585 nm / 620 nm / 690 nm plus compartment for an additional filter
- Also available in a reagent case for environmental analysis

#### NANOCOLOR® PF-12Plus photometer

- Heating block for chemical-analytical digestions
- Standard parameters for routine digestions such as COD, TOC, total nitrogen, total phosphorus and metals
- 2 x 12 places for tubes with 16 mm OD
- The two heating units can be controlled separately
- 6 preprogrammed temperatures 70 °C / 100 °C / 120 °C / 148 °C / 150 °C / 160 °C
- 6 free memory locations for individual temperature settings

Product	Reference	Price*
NANOCOLOR Advance	MN 919750	€ 3366.00
NANOCOLOR PF12-Plus	MN 919250	€ 1048.00
NANOCOLOR Vario 4	MN 919300	€ 2371.00
